4. Mike Moore presented pictures, drawings, and prices for purchasing a rail system for the lobby to guide the daily traffic to the front desk. Discussed that there are times when people come through without scanning in or signing in. This system would enable the staff to be better informed of who is coming in and out of the center. Motion made to purchase the gates for the rail system by Nofsinger, second by Kolb. All in favor.
5. Discussed the heater for the pool pump room that is not working. This is the original, therefore we discussed Mike seeking out better options that could be available.
